Specifications:

General

- Cast aluminum housing
- Brushed nickel plated finish, white or black painted
- Converts line voltage of track to 12 volts
- For use with low voltage mini pendants
- Utilizes a double contact bayonet EZ Loc system for quick lock up of components
- Accommodates P8777 adaptor for using Illuma-Flex™ fixtures with Alpha Trak® system
- Requires electronic low voltage dimmer for dimming operation

Mounting

- Attaches to Alpha Trak®
- Quarter turn fastening to the track
- Can only be attached in proper position for correct polarity
- Transformer locks to track to prevent accidental removal

Electrical

- 50w max, 120 to 12 volt electronic transformer
- Transformer is potted for minimum noise, lowest heat and protection of components

Labeling

- UL-CUL listed
